

Capstone Nutrition Wins Settlement in MusclePharm Litigation

Ogden, Utah, November 8, 2016 – Capstone Nutrition (“Capstone”) today confirmed that it has reached a favorable settlement agreement with MusclePharm Corporation (“MusclePharm”) following a complaint filed on May 16, 2016 against MusclePharm for multiple contract breaches, including failing to pay for product received and failing to meet minimum volume requirements.

As part of the settlement, Capstone will receive an undisclosed amount of cash and other consideration from MusclePharm, as well as MusclePharm’s dismissal with prejudice of its counter-complaint filed on June 21, 2016.

“Capstone has seen dramatic customer growth and confidence since moving on from the MusclePharm relationship last year, and we are pleased now to have reached such a satisfactory settlement, thereby ending the MusclePharm chapter,” said Jared Leishman, Capstone’s Chief Executive Officer. “These positive results, together with our owners’ continued strong financial backing, bolster Capstone’s position as the premier manufacturing partner for the nutrition and sports supplement industry.”
