

Kevin Elsberry Appointed Chief Operating Officer of Capstone Nutrition

Ogden, Utah, March 7, 2017 – Capstone Nutrition (“Capstone”), one of the largest non-branded contract manufacturers of health and dietary supplements in the United States, today announced the appointment of Kevin Elsberry as Chief Operating Officer.

Elsberry brings 19 years of manufacturing management experience to Capstone, including having led four “Lean Transformations” in the areas of nutraceuticals, food, events and high-tech. Notably, Elsberry led the nutraceutical operations turnaround at Schiff Nutrition International as VP of Manufacturing Operations from 2011 to 2013, and the Shingo Prize winning Lean Transformation at EFI Electronics, as VP of Operations & Engineering from 2006 to 2010.

“I look forward to working with Capstone’s team at their state-of-the-art manufacturing facility and supporting the company’s mission to deliver high quality nutritional products and outstanding customer service,” stated Elsberry.

Elsberry’s appointment follows a successful restructuring, leadership change, and the implementation of a cultural initiative, which together have enabled Capstone to make significant strides in regaining its industry leading position.

“We are excited Kevin has accepted the role of Chief Operating Officer,” said Jared Leishman, Capstone’s Chief Executive Officer. Leishman added, “Kevin’s leadership skills and operations experience will enhance Capstone’s ability to deliver industry leading quality, customer value and service.”

Capstone’s world-class manufacturing facility, unparalleled product development team, and numerous certifications, including TGA, NSF GMP and NSF for Sport, give it a unique advantage in supporting global markets.
