

CAPSTONE NUTRITION WINS “MANUFACTURER OF THE YEAR”

Ogden, Utah, November 7, 2018 – Capstone Nutrition (“Capstone” or the “Company”), one of the largest contract manufacturers of health and dietary supplements in the United States, has received the 2018 Utah Manufacturer of the Year Award from the Utah Manufacturers Association (“UMA”). The UMA selected Capstone for its “outstanding vision, starting and ending with culture.” Capstone was presented the award at the annual UMA Awards Ceremony on Saturday, November 3rd, 2018.

“This is a recognition of the tremendous effort of our team to embrace our cultural values. Capstone’s success begins and ends with our talented people and the families that support them,” said Jared Leishman CEO. “I’m proud of our progress and excited for our future, rooted in our values of GO BIG, Never Give Up, and Enjoy Life.”

Capstone has recently embarked on an enterprise-wide LEAN transformation led by COO Kevin Elsberry and General Manager James Hinkle. Commenting on the transformation, Elsberry said, “It’s been energizing to embrace the principles of LEAN thinking. The team has come together to remove barriers and achieve best-in-class results.”

Tyler Burningham, VP of Human Resources and Organizational Development said, “Our employees deserve this win! There are many good manufacturers in Utah and we are honored to be chosen among them as the UMA’s Manufacturer of the Year.”

Capstone’s state-of-the-art manufacturing facility, unparalleled product development team, and numerous certifications give it a market-leading advantage in countries across the world. To learn more visit Capstone Nutrition’s booth at SupplySide West at Mandalay Bay in Las Vegas, NV, November 6th – 10th, 2018.

About Capstone Nutrition

Capstone Nutrition is the leading pure-play, turnkey developer and manufacturer of high quality nutrition. Capstone is a one-stop shop for innovators in nutrition, bringing to bear the experience of dedicated scientists and trusted industry professionals. Since 1992, Capstone has been conceiving, developing, producing and packaging a wide range of capsule, tablet, and powder products for customers in the United States and internationally. Headquartered at its state-of-the-art facility in Ogden, Utah, Capstone is known for exceptional quality, and maintains many industry certifications recognizing its high manufacturing standards, including NSF GMP, NSF for Sport, and Australia’s Therapeutic Goods Administration (“TGA”) certification.
